What Happens if I Can't Pay? Options for Financially Challenged Borrowers	How can a borrower pay their student loan payment if they barely have enough to get by each month? Unfortunately, too many of your former students find themselves in this situation shortly after they've left school or graduated. Federal student loans have options that other types of loans do not but the key is helping financially challenged borrowers understand what those options are before it's too late. Join this session to learn how you can help them avoid delinquency and default. We'll also review the newly released deferment and forbearance forms and how processing these new forms may differ from the existing versions.
